## **Trust Joiner Forms**

In order to enroll into some of the medical insurance plans, you must also complete the two required "Trust Joiner Forms". An Employee Trust has been developed to allow us to better negotiate rates with insurance carriers on behalf of family child care providers. The Employee Trust also provides an added layer of protection to the medical plans by making sure the carriers operate within compliance, etc.

### ***Am I joining a union?***

No, you are not directly joining a labor union. An Employee Trust is connected to a union, but in the case of the Employee Trust developed for family child care providers, you only have access to the employee benefits portion – labor relations is not connected to the Employee Trust you are joining. Your interest is solely for access to employee benefits.

### ***Key Field Definitions:***

#### **Page 1**
